

C02 Downloadable Professional Resource Pack

Learner Agency, Voice and Choice

Finnish-inspired - EDUFI-aligned - FINEEC-benchmarked

Digital professional learning platform

Email: hello@fcej.eu | Website: www.fcej.eu

Course resource purpose

This course-level downloadable pack upgrades the FCEI resources for Learner Agency, Voice and Choice. It is designed for learner use, facilitator guidance, institutional implementation and developer integration on www.fcej.eu.

Framework focus: learner agency. Core terminology: goal clarity, voice, choice, reflection and purposeful challenge.

Professional framing used in every resource

OKM / Ministry of Education and Culture: system development, public responsibility, education quality, institutional direction and policy-aware improvement.

EDUFI: curriculum as a common foundation for equality, local adaptation, school culture, pedagogy, teaching support and learner experience.

FINEEC: enhancement-led evaluation, participation, trust, learning, appreciation, strengths, development targets and impact.

Module downloadables

C02-M01 - Learner Voice and Choice

Downloadable resource	Learner Voice and Choice - Professional Downloadable Toolkit
Short explanation	This downloadable toolkit supports Learner Voice and Choice within Learner Agency, Voice and Choice. It helps participants translate Finnish education principles into a reusable professional artefact, not simply complete a reading activity.
OKM framing	The resource connects classroom, leadership and institutional development to the wider Ministry of Education and Culture policy context: education improvement should be planned as part of system development, quality, inclusion, research-informed practice and public responsibility.
EDUFI-aligned framing	The resource uses EDUFI-aligned wording by treating curriculum and learning design as a common foundation that supports equality while allowing local adaptation. Participants connect national-level principles to local curriculum, school culture, pedagogy and learner experience.
FINEEC-benchmarked framing	The resource uses FINEEC-benchmarked wording by applying enhancement-led development: participation, trust, learning, appreciation, strengths, development targets and impact. Evidence is used to improve practice, not to blame individuals.
Meaning in practice	In practice, participants use the toolkit to identify one priority related to Learner Voice and Choice, choose a manageable action, complete the professional template, collect evidence and decide what should improve next.
Evidence requirement	learner voice record, choice map, reflection prompt and agency evidence
Model completed example	A participant notices that learner voice and choice is discussed in general terms but is not yet visible in daily practice. They complete the toolkit by selecting one priority, designing a focused action, collecting one piece of evidence, and writing a next-step improvement decision.
Reflection prompt	What changed in practice after using this Learner Voice and Choice resource? What evidence supports your judgement? What should be continued, adapted,

Certificate evidence rule	scaled or redesigned? The downloadable evidence is complete when the participant submits a filled Learner Voice and Choice - Professional Downloadable Toolkit, includes evidence connected to learner voice record, choice map, reflection prompt and agency evidence, and writes one improvement decision aligned to the FCEI Finnish Teacher Training Development Framework.
---------------------------	--
