

C10 Downloadable Professional Resource Pack

School Leadership, Quality Culture and Enhancement-Led Development

Finnish-inspired - EDUFI-aligned - FINEEC-benchmarked

Digital professional learning platform

Email: hello@fcei.eu | Website: www.fcei.eu

Course resource purpose

This course-level downloadable pack upgrades the FCEI resources for School Leadership, Quality Culture and Enhancement-Led Development. It is designed for learner use, facilitator guidance, institutional implementation and developer integration on www.fcei.eu.

Framework focus: leadership quality culture. Core terminology: self-evaluation, enhancement-led development and evidence-informed leadership.

Professional framing used in every resource

OKM / Ministry of Education and Culture: system development, public responsibility, education quality, institutional direction and policy-aware improvement.

EDUFI: curriculum as a common foundation for equality, local adaptation, school culture, pedagogy, teaching support and learner experience.

FINEEC: enhancement-led evaluation, participation, trust, learning, appreciation, strengths, development targets and impact.

Module downloadables

C10-M01 - Leadership for Learning

Downloadable resource	Leadership for Learning - Professional Downloadable Toolkit
Short explanation	This downloadable toolkit supports Leadership for Learning within School Leadership, Quality Culture and Enhancement-Led Development. It helps participants translate Finnish education principles into a reusable professional artefact, not simply complete a reading activity.
OKM framing	The resource connects classroom, leadership and institutional development to the wider Ministry of Education and Culture policy context: education improvement should be planned as part of system development, quality, inclusion, research-informed practice and public responsibility.
EDUFI-aligned framing	The resource uses EDUFI-aligned wording by treating curriculum and learning design as a common foundation that supports equality while allowing local adaptation. Participants connect national-level principles to local curriculum, school culture, pedagogy and learner experience.
FINEEC-benchmarked framing	The resource uses FINEEC-benchmarked wording by applying enhancement-led development: participation, trust, learning, appreciation, strengths, development targets and impact. Evidence is used to improve practice, not to blame individuals.
Meaning in practice	In practice, participants use the toolkit to identify one priority related to Leadership for Learning, choose a manageable action, complete the professional template, collect evidence and decide what should improve next.
Evidence requirement	quality culture self-review, leadership action plan and evidence-informed decision record
Model completed example	A participant notices that leadership for learning is discussed in general terms but is not yet visible in daily practice. They complete the toolkit by selecting one priority, designing a focused action, collecting one piece of evidence, and writing a next-step improvement decision.

Reflection prompt	What changed in practice after using this Leadership for Learning resource? What evidence supports your judgement? What should be continued, adapted, scaled or redesigned?
Certificate evidence rule	The downloadable evidence is complete when the participant submits a filled Leadership for Learning - Professional Downloadable Toolkit, includes evidence connected to quality culture self-review, leadership action plan and evidence-informed decision record, and writes one improvement decision aligned to the FCEI Finnish Teacher Training Development Framework.

Editable template fields:

- Context and role
- Priority or problem statement
- EDUFI-aligned principle in action
- FINEEC-benchmarked evidence focus
- Action steps
- Evidence source
- Stakeholder or learner voice
- Reflection and next improvement decision

C10-M02 - Quality Culture and Self-Evaluation

Downloadable resource	Quality Culture and Self-Evaluation - Professional Downloadable Toolkit
Short explanation	This downloadable toolkit supports Quality Culture and Self-Evaluation within School Leadership, Quality Culture and Enhancement-Led Development. It helps participants translate Finnish education principles into a reusable professional artefact, not simply complete a reading activity.
OKM framing	The resource connects classroom, leadership and institutional development to the wider Ministry of Education and Culture policy context: education improvement should be planned as part of system development, quality, inclusion, research-informed practice and public responsibility.
EDUFI-aligned framing	The resource uses EDUFI-aligned wording by treating curriculum and learning design as a common foundation that supports equality while allowing local adaptation. Participants connect national-level principles to local curriculum, school culture, pedagogy and learner experience.
FINEEC-benchmarked framing	The resource uses FINEEC-benchmarked wording by applying enhancement-led development: participation, trust, learning, appreciation, strengths, development targets and impact. Evidence is used to improve practice, not to blame individuals.
Meaning in practice	In practice, participants use the toolkit to identify one priority related to Quality Culture and Self-Evaluation, choose a manageable action, complete the professional template, collect evidence and decide what should improve next.
Evidence requirement	quality culture self-review, leadership action plan and evidence-informed decision record
Model completed example	A participant notices that quality culture and self-evaluation is discussed in general terms but is not yet visible in daily practice. They complete the toolkit by selecting one priority, designing a focused action, collecting one piece of evidence, and writing a next-step improvement decision.
Reflection prompt	What changed in practice after using this Quality Culture and Self-Evaluation resource? What evidence supports your judgement? What should be continued, adapted, scaled or redesigned?
Certificate evidence rule	The downloadable evidence is complete when the participant submits a filled Quality Culture and Self-Evaluation - Professional Downloadable Toolkit, includes evidence connected to quality culture self-review, leadership action plan and evidence-informed decision record, and writes one improvement decision aligned to the FCEI Finnish Teacher Training Development Framework.

Editable template fields:

- Context and role
- Priority or problem statement
- EDUFI-aligned principle in action
- FINEEC-benchmarked evidence focus
- Action steps
- Evidence source
- Stakeholder or learner voice
- Reflection and next improvement decision

C10-M03 - Enhancement-Led Development Planning

Downloadable resource	Enhancement-Led Development Planning - Professional Downloadable Toolkit
Short explanation	This downloadable toolkit supports Enhancement-Led Development Planning within School Leadership, Quality Culture and Enhancement-Led Development. It helps participants translate Finnish education principles into a reusable professional artefact, not simply complete a reading activity.
OKM framing	The resource connects classroom, leadership and institutional development to the wider Ministry of Education and Culture policy context: education improvement should be planned as part of system development, quality, inclusion, research-

	informed practice and public responsibility.
