

C12 Downloadable Professional Resource Pack

Capstone Portfolio, Evidence Submission and Certification Preparation

Finnish-inspired - EDUFI-aligned - FINEEC-benchmarked

Digital professional learning platform

Email: hello@fcei.eu | Website: www.fcei.eu

Course resource purpose

This course-level downloadable pack upgrades the FCEI resources for Capstone Portfolio, Evidence Submission and Certification Preparation. It is designed for learner use, facilitator guidance, institutional implementation and developer integration on www.fcei.eu.

Framework focus: capstone evidence. Core terminology: portfolio preparation, reflection, completion rules and certification evidence.

Professional framing used in every resource

OKM / Ministry of Education and Culture: system development, public responsibility, education quality, institutional direction and policy-aware improvement.

EDUFI: curriculum as a common foundation for equality, local adaptation, school culture, pedagogy, teaching support and learner experience.

FINEEC: enhancement-led evaluation, participation, trust, learning, appreciation, strengths, development targets and impact.

Module downloadables

C12-M01 - Capstone Portfolio Orientation

Downloadable resource	Capstone Portfolio Orientation - Professional Downloadable Toolkit
Short explanation	This downloadable toolkit supports Capstone Portfolio Orientation within Capstone Portfolio, Evidence Submission and Certification Preparation. It helps participants translate Finnish education principles into a reusable professional artefact, not simply complete a reading activity.
OKM framing	The resource connects classroom, leadership and institutional development to the wider Ministry of Education and Culture policy context: education improvement should be planned as part of system development, quality, inclusion, research-informed practice and public responsibility.
EDUFI-aligned framing	The resource uses EDUFI-aligned wording by treating curriculum and learning design as a common foundation that supports equality while allowing local adaptation. Participants connect national-level principles to local curriculum, school culture, pedagogy and learner experience.
FINEEC-benchmarked framing	The resource uses FINEEC-benchmarked wording by applying enhancement-led development: participation, trust, learning, appreciation, strengths, development targets and impact. Evidence is used to improve practice, not to blame individuals.
Meaning in practice	In practice, participants use the toolkit to identify one priority related to Capstone Portfolio Orientation, choose a manageable action, complete the professional template, collect evidence and decide what should improve next.
Evidence requirement	portfolio index, evidence narrative and completion checklist
Model completed example	A participant notices that capstone portfolio orientation is discussed in general terms but is not yet visible in daily practice. They complete the toolkit by selecting one priority, designing a focused action, collecting one piece of evidence, and writing a next-step improvement decision.
Reflection prompt	What changed in practice after using this Capstone Portfolio Orientation resource? What evidence supports your judgement? What should be continued, adapted,

Certificate evidence rule	scaled or redesigned? The downloadable evidence is complete when the participant submits a filled Capstone Portfolio Orientation - Professional Downloadable Toolkit, includes evidence connected to portfolio index, evidence narrative and completion checklist, and writes one improvement decision aligned to the FCEI Finnish Teacher Training Development Framework.
---------------------------	---

Editable template fields:

- Context and role
- Priority or problem statement
- EDUFI-aligned principle in action
- FINEEC-benchmarked evidence focus
- Action steps
- Evidence source
- Stakeholder or learner voice
- Reflection and next improvement decision

C12-M02 - Evidence Selection and Organisation

Downloadable resource	Evidence Selection and Organisation - Professional Downloadable Toolkit
Short explanation	This downloadable toolkit supports Evidence Selection and Organisation within Capstone Portfolio, Evidence Submission and Certification Preparation. It helps participants translate Finnish education principles into a reusable professional artefact, not simply complete a reading activity.
OKM framing	The resource connects classroom, leadership and institutional development to the wider Ministry of Education and Culture policy context: education improvement should be planned as part of system development, quality, inclusion, research-informed practice and public responsibility.
EDUFI-aligned framing	The resource uses EDUFI-aligned wording by treating curriculum and learning design as a common foundation that supports equality while allowing local adaptation. Participants connect national-level principles to local curriculum, school culture, pedagogy and learner experience.
FINEEC-benchmarked framing	The resource uses FINEEC-benchmarked wording by applying enhancement-led development: participation, trust, learning, appreciation, strengths, development targets and impact. Evidence is used to improve practice, not to blame individuals.
Meaning in practice	In practice, participants use the toolkit to identify one priority related to Evidence Selection and Organisation, choose a manageable action, complete the professional template, collect evidence and decide what should improve next.
Evidence requirement	portfolio index, evidence narrative and completion checklist
Model completed example	A participant notices that evidence selection and organisation is discussed in general terms but is not yet visible in daily practice. They complete the toolkit by selecting one priority, designing a focused action, collecting one piece of evidence, and writing a next-step improvement decision.
Reflection prompt	What changed in practice after using this Evidence Selection and Organisation resource? What evidence supports your judgement? What should be continued, adapted, scaled or redesigned?
Certificate evidence rule	The downloadable evidence is complete when the participant submits a filled Evidence Selection and Organisation - Professional Downloadable Toolkit, includes evidence connected to portfolio index, evidence narrative and completion checklist, and writes one improvement decision aligned to the FCEI Finnish Teacher Training Development Framework.

Editable template fields:

- Context and role
- Priority or problem statement
- EDUFI-aligned principle in action
- FINEEC-benchmarked evidence focus
- Action steps
- Evidence source
- Stakeholder or learner voice
- Reflection and next improvement decision

C12-M03 - Reflection and Professional Narrative

Downloadable resource	Reflection and Professional Narrative - Professional Downloadable Toolkit
Short explanation	This downloadable toolkit supports Reflection and Professional Narrative within Capstone Portfolio, Evidence Submission and Certification Preparation. It helps participants translate Finnish education principles into a reusable professional artefact, not simply complete a reading activity.
OKM framing	The resource connects classroom, leadership and institutional development to the wider Ministry of Education and Culture policy context: education improvement should be planned as part of system development, quality, inclusion, research-informed practice and public responsibility.
EDUFI-aligned framing	The resource uses EDUFI-aligned wording by treating curriculum and learning design as a common foundation that supports equality while allowing local

	adaptation. Participants connect national-level principles to local curriculum, school culture, pedagogy and learner experience.
FINEEC-benchmarked framing	The resource uses FINEEC-benchmarked wording by applying enhancement-led development: participation, trust, learning, appreciation, strengths, development targets and impact. Evidence is used to improve practice, not to blame individuals.
Meaning in practice	In practice, participants use the toolkit to identify one priority related to Reflection and Professional Narrative, choose a manageable action, complete the professional template, collect evidence and decide what should improve next.
Evidence requirement	portfolio index, evidence narrative and completion checklist
Model completed example	A participant notices that reflection and professional narrative is discussed in general terms but is not yet visible in daily practice. They complete the toolkit by selecting one priority, designing a focused action, collecting one piece of evidence, and writing a next-step improvement decision.
Reflection prompt	What changed in practice after using this Reflection and Professional Narrative resource? What evidence supports your judgement? What should be continued, adapted, scaled or redesigned?
Certificate evidence rule	The downloadable evidence is complete when the participant submits a filled Reflection and Professional Narrative - Professional Downloadable Toolkit, includes evidence connected to portfolio index, evidence narrative and completion checklist, and writes one improvement decision aligned to the FCEI Finnish Teacher Training Development Framework.

Editable template fields:

- Context and role
- Priority or problem statement
- EDUFI-aligned principle in action
- FINEEC-benchmarked evidence focus
- Action steps
- Evidence source
- Stakeholder or learner voice
- Reflection and next improvement decision

C12-M04 - Certificate Evidence Checklist

Downloadable resource	Certificate Evidence Checklist - Professional Downloadable Toolkit
Short explanation	This downloadable toolkit supports Certificate Evidence Checklist within Capstone Portfolio, Evidence Submission and Certification Preparation. It helps participants translate Finnish education principles into a reusable professional artefact, not simply complete a reading activity.
OKM framing	The resource connects classroom, leadership and institutional development to the wider Ministry of Education and Culture policy context: education improvement should be planned as part of system development, quality, inclusion, research-informed practice and public responsibility.
EDUFI-aligned framing	The resource uses EDUFI-aligned wording by treating curriculum and learning design as a common foundation that supports equality while allowing local adaptation. Participants connect national-level principles to local curriculum, school culture, pedagogy and learner experience.
FINEEC-benchmarked framing	The resource uses FINEEC-benchmarked wording by applying enhancement-led development: participation, trust, learning, appreciation, strengths, development targets and impact. Evidence is used to improve practice, not to blame individuals.
Meaning in practice	In practice, participants use the toolkit to identify one priority related to Certificate Evidence Checklist, choose a manageable action, complete the professional template, collect evidence and decide what should improve next.
Evidence requirement	portfolio index, evidence narrative and completion checklist
Model completed example	A participant notices that certificate evidence checklist is discussed in general terms but is not yet visible in daily practice. They complete the toolkit by selecting one priority, designing a focused action, collecting one piece of evidence, and writing a next-step improvement decision.
Reflection prompt	What changed in practice after using this Certificate Evidence Checklist resource? What evidence supports your judgement? What should be continued, adapted, scaled or redesigned?
Certificate evidence rule	The downloadable evidence is complete when the participant submits a filled Certificate Evidence Checklist - Professional Downloadable Toolkit, includes evidence connected to portfolio index, evidence narrative and completion checklist, and writes one improvement decision aligned to the FCEI Finnish Teacher Training Development Framework.

Editable template fields:

- Context and role
- Priority or problem statement
- EDUFI-aligned principle in action
- FINEEC-benchmarked evidence focus
- Action steps
- Evidence source
- Stakeholder or learner voice
- Reflection and next improvement decision

C12-M05 - Final Submission Preparation

Downloadable resource	Final Submission Preparation - Professional Downloadable Toolkit
Short explanation	This downloadable toolkit supports Final Submission Preparation within Capstone Portfolio, Evidence Submission and Certification Preparation. It helps participants translate Finnish education principles into a reusable professional artefact, not simply complete a reading activity.
OKM framing	The resource connects classroom, leadership and institutional development to the wider Ministry of Education and Culture policy context: education improvement should be planned as part of system development, quality, inclusion, research-informed practice and public responsibility.
EDUFI-aligned framing	The resource uses EDUFI-aligned wording by treating curriculum and learning design as a common foundation that supports equality while allowing local adaptation. Participants connect national-level principles to local curriculum, school culture, pedagogy and learner experience.
FINEEC-benchmarked framing	The resource uses FINEEC-benchmarked wording by applying enhancement-led development: participation, trust, learning, appreciation, strengths, development targets and impact. Evidence is used to improve practice, not to blame individuals.
Meaning in practice	In practice, participants use the toolkit to identify one priority related to Final Submission Preparation, choose a manageable action, complete the professional template, collect evidence and decide what should improve next.
Evidence requirement	portfolio index, evidence narrative and completion checklist
Model completed example	A participant notices that final submission preparation is discussed in general terms but is not yet visible in daily practice. They complete the toolkit by selecting one priority, designing a focused action, collecting one piece of evidence, and writing a next-step improvement decision.
Reflection prompt	What changed in practice after using this Final Submission Preparation resource? What evidence supports your judgement? What should be continued, adapted, scaled or redesigned?
Certificate evidence rule	The downloadable evidence is complete when the participant submits a filled Final Submission Preparation - Professional Downloadable Toolkit, includes evidence connected to portfolio index, evidence narrative and completion checklist, and writes one improvement decision aligned to the FCEI Finnish Teacher Training Development Framework.

Editable template fields:

- Context and role
- Priority or problem statement
- EDUFI-aligned principle in action
- FINEEC-benchmarked evidence focus
- Action steps
- Evidence source
- Stakeholder or learner voice
- Reflection and next improvement decision

C12-M06 - Capstone Review and Next Steps

Downloadable resource	Capstone Review and Next Steps - Professional Downloadable Toolkit
Short explanation	This downloadable toolkit supports Capstone Review and Next Steps within Capstone Portfolio, Evidence Submission and Certification Preparation. It helps participants translate Finnish education principles into a reusable professional artefact, not simply complete a reading activity.
OKM framing	The resource connects classroom, leadership and institutional development to the wider Ministry of Education and Culture policy context: education improvement should be planned as part of system development, quality, inclusion, research-informed practice and public responsibility.
EDUFI-aligned framing	The resource uses EDUFI-aligned wording by treating curriculum and learning design as a common foundation that supports equality while allowing local adaptation. Participants connect national-level principles to local curriculum, school culture, pedagogy and learner experience.
FINEEC-benchmarked framing	The resource uses FINEEC-benchmarked wording by applying enhancement-led development: participation, trust, learning, appreciation, strengths, development targets and impact. Evidence is used to improve practice, not to blame individuals.
Meaning in practice	In practice, participants use the toolkit to identify one priority related to Capstone Review and Next Steps, choose a manageable action, complete the professional template, collect evidence and decide what should improve next.
Evidence requirement	portfolio index, evidence narrative and completion checklist
Model completed example	A participant notices that capstone review and next steps is discussed in general terms but is not yet visible in daily practice. They complete the toolkit by selecting one priority, designing a focused action, collecting one piece of evidence, and writing a next-step improvement decision.
Reflection prompt	What changed in practice after using this Capstone Review and Next Steps resource? What evidence supports your judgement? What should be continued, adapted, scaled or redesigned?
Certificate evidence rule	The downloadable evidence is complete when the participant submits a filled Capstone Review and Next Steps - Professional Downloadable Toolkit, includes evidence connected to portfolio index, evidence narrative and completion checklist, and writes one improvement decision aligned to the FCEI Finnish Teacher Training Development Framework.

Editable template fields:

- Context and role
