

School Leadership Quality Culture Map

A visual framework that helps school leaders map trust, evidence routines, staff participation, learner experience and enhancement-led improvement into one quality culture cycle.

Downloadable professional learning asset | Finnish-Pedagogy | EDUFI-aligned | FINEEC-benchmarked

Resource type	Visual leadership framework
Author	Finland Creative Education Institute (FCEI)
Recommended users	teachers, school leaders, facilitators, TVET providers and education teams
Internal course links	C10 School Leadership and Institutional Improvement; C09 Teacher Inquiry and Evidence-Informed Practice; C14 Consultancy and Institutional Implementation

Purpose

Use this map to help leaders see quality culture as a living improvement system rather than a document or inspection file. It connects direction, trust, evidence, participation, reflection and action.

EDUFI-aligned use

The map supports leadership for school culture, local curriculum implementation, learner support and professional responsibility.

FINEEC-benchmarked use

The map supports enhancement-led quality development by emphasising participation, trust, self-evaluation, strengths and improvement decisions.

Key definitions

Quality culture means shared habits of reviewing, learning and improving. Evidence routine means a regular way of collecting and discussing evidence. Enhancement-led development means improvement through trust, participation, reflection and impact.

How to use

Use the map in a leadership meeting. Rate each domain. Identify one strength, one risk and one improvement action. Agree how evidence will be reviewed at the next meeting.

Working tool

Quality culture domain	Current strength	Risk or gap	Evidence source	Next leadership action
Shared direction and values				
Professional trust and teacher agency				
Learner wellbeing and participation				
Evidence-informed decision routines				
Staff dialogue and self-evaluation				
Improvement planning and follow-through				

Model completed example

A leadership team rates evidence-informed decision routines as developing. Meeting notes show that data is collected but not discussed consistently. The team schedules a monthly evidence review using learner voice, attendance, work samples and teacher reflection, then records one action decision each month.

Reflection and improvement prompts

- What does quality culture look like in our weekly routines?
- Where do we use evidence well?
- What is one leadership action that will make improvement visible?

Finland Creative Education Institute (FCEI)

Author bio

Finland Creative Education Institute (FCEI) is a digital professional learning platform that supports educators, school leaders, TVET providers, institutions and learning communities through Finnish-Pedagogy training, EDUFI-aligned curriculum language, FINEEC-benchmarked quality improvement practice and practical evidence-based implementation tools.
