

VET Workplace Evidence Template

A practical template for technical and vocational training providers to collect evidence from observable workplace tasks, industry scenarios and competence demonstrations.

Downloadable professional learning asset | Finnish-Pedagogy | EDUFI-aligned | FINEEC-benchmarked

Resource type	Workplace evidence template
Author	Finland Creative Education Institute (FCEI)
Recommended users	teachers, school leaders, facilitators, TVET providers and education teams
Internal course links	C13 TVET Competence-Based Learning and Workplace Evidence; C04 Formative Assessment and Feedback; C14 Consultancy and Institutional Implementation

Purpose

Use this template to move vocational assessment from written recall only to visible competence evidence. It helps trainers define an observable work task, add a workplace scenario and collect evidence from a practical demonstration.

EDUFI-aligned use

The template supports competence, progression, learner evidence and connection between learning and working life.

FINEEC-benchmarked use

The template supports quality improvement by making assessment evidence clearer, fairer and easier to review across trainers and workplace partners.

Key definitions

Competence means the learner can apply knowledge, skill and judgement in a real or simulated work task. Workplace evidence means proof from demonstration, observation, product, process, reflection or supervisor feedback. Assessment criterion means the standard used to judge performance.

How to use

Choose one unit or topic. Rewrite it as an observable workplace task. Add a scenario. Define success criteria. Observe the demonstration. Record evidence, feedback and next improvement step.

Working tool

Field	Trainer entry	Workplace/assessor evidence
Programme / unit		
Observable workplace task		
Industry or workplace scenario		
Tools, materials or safety requirements		
Competence criteria		
Practical demonstration evidence		
Learner reflection		
Assessor / workplace feedback		
Improvement or reassessment decision		

Model completed example

In a hospitality unit, the topic Food Safety is rewritten as: prepare and present a cold sandwich using safe food-handling procedures. Evidence includes observation notes, temperature record, hygiene checklist, final product photo and learner reflection on risk control.

Reflection and improvement prompts

- What task shows real competence?
- What workplace evidence is stronger than a written answer alone?
- How will feedback support improvement?

Finland Creative Education Institute (FCEI)

Author bio

Finland Creative Education Institute (FCEI) is a digital professional learning platform that supports educators, school leaders, TVET providers, institutions and learning communities through Finnish-Pedagogy training, EDUFI-aligned curriculum language, FINEEC-benchmarked quality improvement practice and practical evidence-based implementation tools.
